8.3.1 DFES High Season Fleet

Expression of interest (EOI) were sent out in August for brigade/s to submit an EOI for consideration of a high season (HS) appliance placement. Shire of Dardanup has submitted an EOI as per last year’s allocation. The outcome of the 2024/25 HS fleet allocations has not been confirmed or released yet. If the HS appliances are requested to be deployed to incidents out of the Shire, it is expected these appliances will be available and crewed accordingly.

8.3.2 2024/25 Seasonal Outlook - Issued 5th September 2024

Across Western Australia rainfall is likely to be within the typical seasonal range, warmer than average days and nights are likely to vary across the region. Rainfall and soil moisture deficiencies have eased in some parts of the Southwest. However, some serious deficiencies in areas are still present, this is imperative for fire fighter situational awareness when dealing with fires in drought effected areas of the region.

8.3.3 Australian Warning System (AWS)

Western Australia has adopted a national consistent approach to emergency information by using a standardised set of warning levels, colours and icons, supported by clear action statements to keep people safe. Cyclone, storm and flood warnings join bushfire and heatwave in using AWS colours, icons and warning levels of Advice, Watch and Act and Emergency Warning.

This system is now live, how you receive warnings may not change, but the wording, colours and call to action may be different to what you’re used to, as this system is implemented across Australia.

Now when issuing bushfire warnings, you will need to provide an action statement to accompany your warning. Online training on how to apply the AWS system is now available on eAcademy.

8.3.4 Training

The DFES Southwest Region held a trainer assessor handover session that was well attended by Dardanup BFB Trainer Assessors, these members were all signed off to coordinate and run both the Bushfire Safety Awareness and Bushfire Fighting Skills courses.

There has been a high uptake by Shire of Dardanup members on most DFES courses being conducted in the region, it is noted and is appreciated that members are continually donating their time to attend these courses and better prepare themselves for the season ahead.

Ricky Southgate will be back in the Area Officer position as of the 14th October, I want to thank everyone for their support that has been displayed to me while I have been in this role, I would also like to thank all the members of the Dardanup bushfire brigades for their continued efforts over the busy off season and into what I'm sure will be another big season ahead.

<i>Other News</i>	-

Item/s For BFAC Discussion - None.

- *Coordinater Health, Emergency and Ranger Services Officer Response -*

Responding to the concern raised regarding the storage tank in the Sand Pit Road subdivisions, the following information is provided to the Brigades.

- The site will become a Shire reserve.
- There have been some site issues with the power installation. Western Power will not connect the subdivision to the interconnected grid until the underground cables are outside of the drainage swale.
- The developer is currently completing design works to enable the cables to remain insitu but to relocate the drainage swale along Sand Pits Rd.
- The drawings were approved today by the Shire and contractors are yet to be engaged to perform the reworks.
- I expect that it is highly unlikely that the reworks will be completed before November, so power connection will be a way off.
- The site will be provided with a metered service similar to a POS.
- No sites on this subdivision have a water service.

Funding Bushfire Risk Mitigation Coordinators is a Department of Fire and Emergency Services initiative to support local governments conduct bushfire mitigation. The primary roles of the Coordinator is to identify mitigation activities, per the Bushfire Risk Management Plan, seek grant funding from the Mitigation Activity Fund, and to implement those measures that receive approval.

The Shires of Capel, Collie and Dardanup share a Bushfire Risk Mitigation Coordinator. For the Shire of Dardanup the Coordinator has successfully obtained \$1,503,000 in grant funds that have been applied to 147 treatments since 2019/20

The grant agreement covering 2025/26 to 2027/28 has been signed by all parties.

8.12.4 Bushfire Risk Management Plan

The Shire's current Bushfire Risk Management Plan 2019-2024 was endorsed by council on 6 November 2019. The plan is due for review this year. The review is progressing. The target for completion of the review is the end of 2024.

8.12.5 Local Government Grant Scheme

Funding for Bush Fire Brigades and State Emergency Service units is allocated via the Local Government Grant Scheme, which itself is funded by moneys collected through the Emergency Services Levy. The Shire uses Local Government Grant Scheme to fund the operational and capital expenses of its eight brigades.

The Shire has been offered, and accepted, \$220,000 for the 2024/25 financial year, and an additional \$10,554 for specified plant/equipment acquisition (aka Line 9). Line 9 items approved are for a security camera system and the relocation of a hot water system for Joshua-Crooked Brook, battery

Total expenditure to date is \$41,429.

The current Work Instructions are a single document. A review is currently underway that will break the work instructions into a suite of documents, each to be developed and reviewed separately, that together will form the Bush Fire Brigades Handbook of the Shire of Dardanup.

Over two meetings the brigades and Shire personnel have discussed the current content. Due to the resignation of the Emergency Management Officer the project has been delayed. While targeted to be complete by the end of 2024, it is likely to extend into early 2025.

The Shire's Emergency Management Officer is responsible for provision of support to the Shire's bushfire brigades. This includes purchasing PPE, arranging services and repairs, review of standard operating procedures, organising catering for courses, etc.

8.12.6 – LGGS Capital Works Application

The Shire will be reaching out to all of the brigades shortly to call for any capital work proposals for the 2025/2026 period to allow the Shire to apply for funding through the LGGS Capital grant stream in a more strategic approach. The Shire has set up a Technical Advisory Group to review such proposals to ensure all aspects of a development is considered (budget implications/ town planning scheme requirements / LGGS conditions). It is intended that all applications will be presented to Council for consideration prior to an application being submitted.
